BEVERAGE

kegs 101

When buying for an event, a good rule of thumb is to estimate one alcoholic drink per person per hour

Also keep in mind - kegs need to be kept refrigerated, or on ice, or they will foam!

1/6 barrel keg
contains 661oz, or
50-55 12oz servings

1/4 barrel keg
contains 992oz, or
75-80 12oz servings

50 liter keg
contains 1,690oz, or
135-140 12oz servings

1/2 barrel keg
contains 1,984oz, or
160-165 12oz servings

wine 101

a traditional 750ml bottle of wine contains five 5oz servings

red wines are typically fuller in body and flavor and pair well with richer and heavier dishes like those including red meat; whereas white wines are usually more acidic and lighter bodied, making them a better choice to pair with poultry, fish, or vegetarian fare

white wines
sauvignon blanc, pinot gris, riesling,
chardonnay, moscato

red wines
cabernet sauvignon, pinot noir, merlot,
zinfandel, grenache

other wines
champagne, prosecco, rosé, orange wine

nonalcoholics

Putting cocktails on the menu? We have a great variety of mixer options, or just something for the non-drinkers at the party!

na beer, cider, & wine brands

Best Day Brewing, Bero, Michelob Ultra Zero, Imposter No-Proof Spirits, Ciderboys NA, Blake's Zero Proof, Stella Rosa

favorite mixers

Cock N Bull Ginger Beer, Polar Seltzer Tonic and Club Soda, Langer's Juices, Polar Jr. Sparkling Waters, and more!
